Remote Work Policy

Who can work remotely

Office-based employees may work from home up to 3 days per week with their manager's agreement. Depot and driving roles are not eligible because their work requires physical presence.

Equipment and expenses

Northwind Logistics provides a laptop and a monitor for approved remote workers. The monthly home-office stipend is 35 euros.

Employees are responsible for a stable internet connection and a safe workspace.

Core hours

Remote employees must be available between 10:00 and 15:00 local time on working days. Meetings are scheduled inside these core hours where possible.
